**Garden  
Railroading**

Outdoor Fun  
for

the Whole Family !

Combine your love for  
trains with your love for  
gardening.

Large Scale model trains,  
with realistic sound, run-  
ning through miniature  
plants, towns, and water  
features, in the great out-  
doors.

This is real railroading !

# Northern Colorado Garden Railroaders

Garden railroading brings model railroading outdoors with real scenery. Layouts can be as simple as a loop of track on existing terrain, or dedicated landscaping in a garden full of scale plants, buildings, bridges, and streams. The fact that the railroad is outdoors promotes involvement from family, friends, and neighbors. A garden railroad is a dynamic display, changing with the seasons.

## Scale -

Most garden railroads run on the same gauge track, 1.75" (45mm) between the rails. Standard gauge models are 1:29 or 1:32 scale. Narrow gauge models are 1:24, 1:22.5, or 1:20.3 scale. All referred to as "Large Scale".

## Purpose -

The **Northern Colorado Garden Railroaders** is a non-profit organization composed of men and women, of all ages, dedicated to sharing knowledge and providing fellowship and support to all those interested in the hobby of garden railroading.

## Monthly meetings -

Third Wednesday of each month. In summer months we meet at member's homes with operational garden railroads. In Winter, an indoor location where members exchange ideas and show projects.

## Special Events -

Plant Swaps, Picnics, Swap Meets. Promotion of the hobby of garden railroading to the public.

## Garden Railroad Tours -

Organized tours of member's garden railroads, running trains, allow NCGR members, other front range garden railroad clubs, and the community to see the variety of techniques and concepts used in building a garden railroad. Every garden railroad is unique.

Tours can help you make many of the initial decisions required to get your own garden railroad started.

## Newsletter -

The *NCGR Time Table* is published monthly to provide club information on upcoming events. In addition, member contributed articles about recent projects or other railroad related events provide valuable information and inspiration.

## NCGR Web Site -

<http://clubs.mylargescale.com/ncgr>  
Member layout photos, on-line newsletters, tour maps, club info.

## Statistics -

Founded in February 1999, our club has about 45 member families in the area, with more than half having operational railroads, including garden, indoor, and riding varieties, with more under construction all the time. Membership consists of both novice and expert garden railroaders.

## Region -

Most of our members live in the Loveland / Greeley / Fort Collins area. All are welcome.

## Caution!

**Garden Railroading  
may be Addictive!**
